
possibly be more unsettling than to come face-to-face with the undead? If this smiling, chainsaw-wielding zombie doesn't motivate you to pull the trigger, nothing will.

NINTENDO 64

KIRBY'S AIR RIDE

Nintendo • Fall 1997

Sources in Japan have confirmed that roly-poly Kirby's latest adventure is indeed slated for release in the U.S. And what better way to make your 64-bit debut than in a real-time, 3-D polygon environment? At press time, gameplay details were still sketchy, but if these photos are any indication, *Air Ride* could turn out to be the best Kirby game yet. Tyrone promises that if this new Kirby adventure *does* come out shining, he will type a formal letter of apology to the cuddly pink marshmallow boy for beating the tar out of him in his twisted nightmare from last issue.
